

GET COVERAGE GRAPHICS ORGANIZER

before/during/after

To expand yearbook coverage, have students step back and look at the big picture. A game doesn't begin with the opening kick-off. It begins months before with conditioning, try-outs and practices. It also involves adjusting home, school and work schedules. The dance didn't end when the final notes of a favorite song faded to silence. The weekend continued with the sponsoring organization cleaning up, counting receipts, paying bills, and the students catching up on sleep and homework. Don't limit your coverage. Have three to four students brainstorm for coverage ideas about a particular sport, club, event, or class using the before/during/after graphic organizer.
